

APG® CASH DRAWER

APG CASH DRAWER®

The POS-Integrator System is a foundational product from APG Cash Drawer. Its unique design allows the POS workstation to be configured left or right-handed based on the design requirements of your checkout counter. It also provides a narrow footprint with space for a full size monitor and receipt printer. Cable management is provided for these components.

Packed with Features

The POS-Integrator System satisfies the requirement of integrating the components of an open architecture system into a compact, efficient POS workstation.

- Eliminates clutter by organizing POS peripherals into an attractive, compact workstation
- Adjusts to fit your workstation space requirements
- Provides cable management to route and hide the peripheral cables
- Provides a sturdy foundation to support POS peripherals
- Choice of colors to match popular peripherals

The fully-featured S100 Cash Drawer is the foundation for this system. It will provide years of trouble-free service and millions of smooth, trouble-free cycles.

POS-Integrator™

APG's POS-Integrator™ System
is a compact foundation for
your POS system.

Build on a Solid Foundation®

APG POS-Integrator™ System

Features / Benefits

- The steel POS-Integrator components are coated with resilient powder coat paint to withstand demanding environments
- The Riser easily attaches to the drawer to elevate the monitor and printer and provide cable routing
- The Printer Tray can be mounted on either the left or right side (see the configuration possibilities depicted to the right)
- The Printer Tray can be mounted on either the Riser or the Drawer
- Lip around Printer Tray contains receipt printer
