MMF's Heritage System II combines a precision built cash drawer with 2 media slots and all MMF interface options and a platform that rests on top of the drawer. MMF's POS-Platform System II is designed to accomodate most POS peripherals such as keyboards, printers, pole displays and monitors. A [Kwick Kable](#) interface is mounted in the rear cable storage compartment, allowing for interchangeable receipt printer connections. [USB and Serial interfaces](#) are also available and all interfaces can be changed in the field to meet application requirements as they evolve. The rear storage compartment, which provides space to neatly conceal cables and surge protector, is easily accessible via a removable panel. Easy to assemble, MMF's POS-Platform System II gives you an organized, contemporary unit in a matter of minutes. The drawer and platform are sold separately.

Dimensions:	18.81 "W x 21"D x 3.87"H
Dimensions with Platform:	Drawer 18.81:W x 21"D x 3.38"H Overall Height (in back) - 7"
