

Zebra® BAR-ONE®

User-Friendly Bar Code Label Design
Software and Connectivity Solutions

Create a bar code masterpiece with Zebra's BAR-ONE design software.

If the label is your canvas, BAR-ONE is your palette! This cost-effective, easy-to-use software solution enables you to design and print virtually any kind of bar code label imaginable. Narrow or wide, UL/CSA-recognized or compliance-mandated, no label is beyond the reach of BAR-ONE's advanced design capabilities.

Bar Coding Made Easy

Featuring an intuitive, Windows®-based interface and a WYSIWYG label design tool, BAR-ONE makes complex bar code label designs and format changes "click" simple. The BAR-ONE software family seamlessly supports every kind of Zebra bar code label printer.

Use Zebra's label design and printing solutions to streamline your labeling requirements within applications such as:

- Inventory control
- Warehouse logistics
- Manufacturing
- Order/supply-chain management
- Electronic commerce
- Retail pharmacy
- Clinical laboratory
- Postal/parcel operations

Connect with it. Count on it.™

BAR-ONE® Software

BAR-ONE 6.04

BAR-ONE 5.1 for mySAP™ Business Suite

BAR-ONE Desktop 6.04

BAR CODING MADE EASY

Zebra's BAR-ONE 6.04 Windows-based label design and printing software turns your printers into powerful tools for printing labels from all major computer platforms.

BAR-ONE provides several versions, all of which provide faster implementation, reduced development costs, enhanced printer performance, and superior label output. If your software needs include integrating high-quality bar code printing into your ERP or legacy application—without costly modifications to databases, reports, or source codes—look to the BAR-ONE suite of software products.

- Design labels easily in an intuitive, Windows®-based interface
- Combine bar codes, text, and graphics from multiple data sources
- Print from legacy systems and customized applications
- Access full support for European languages
- Choose from several versions of software to match your label design needs

PRINT BAR CODE LABELS DIRECT FROM mySAP BUSINESS SUITE

BAR-ONE 5.1 for mySAP Business Suite* allows you to print directly from mySAP Business Suite software by automatically generating SAPscript for use with Zebra printers based on Zebra Programming Language (ZPL®). The resulting SAPscript is ready for uploading into SAP Layout Sets, without requiring user modifications. It enables users to design, modify and print complex label formats through a simple graphical interface. The result is an extremely fast and hassle-free way to generate bar codes directly from mySAP Business Suite applications.

- Perform all label design and object manipulation graphically
- Save time and money by eliminating ITF file or SAPscript modifications
- Print labels fast by downloading fonts, logos, and label formats directly into the printer's memory
- Store or set variable graphics from mySAP Business Suite in the printer
- Enter SAPscript directly into label variables using the label design tool, and achieve greater power and flexibility

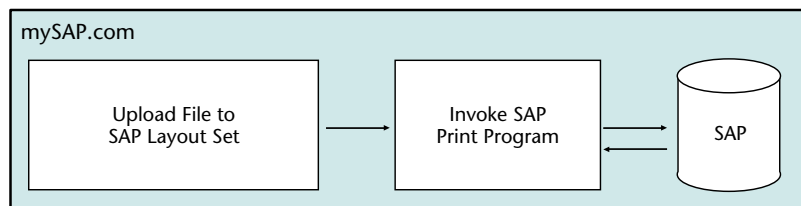

*BAR-ONE 5.1 for mySAP Business Suite is specifically for use with BAR-ONE version 5.1.

ECONOMICAL SOLUTION FOR DESKTOP AND SELECT MOBILE PRINTERS

An economical, easy-to-use extension of the BAR-ONE product family, BAR-ONE Desktop is designed for use with any Zebra desktop printer and select Zebra mobile printers. BAR-ONE Desktop's code converter feature, which lets you translate other printer control language file formats, and then edit and print these files using BAR-ONE software, allows easy integration with non-Zebra printers. Those who currently use Zebra's Create-A-Label 3™ label design software (version 3.04 or higher) can effortlessly transition to BAR-ONE Desktop with a special, competitively priced upgrade version.

BAR-ONE Desktop provides strong value with a rich list of supported features including Keyboard Display Units (KDU) for standalone operation, TCP/IP, code converter, and multi-document interface. Combine bar codes, text, and graphics from multiple data sources to design and print custom labels. It's simple!
